LAND is the most secure of all investments, therefore it is called in contradistinction to other types of investment, REAL ESTATE. TRANSPORTATION and accessibility are the fundamental principles that enhance the value of REAL ESTATE Improved transportation has brought Forest Hills Gardens within fifteen minutes of the centre of Manbattan

cens within fifteen minutes of the centre of Manhattan. BUILDING operations have been resumed. The increased cost of building is offset by the low price of the land Many people are purchasing plots and having plans prepared. Our belief that prices are staple—even though higher than pre-war prices—is confirmed by the fact that the SAGE FOUNDATION HOMES CO, is at present building 25 houses, costing over three-quarters of a million dollars. We urge upon those contemplating owning a home the carly selection of a building site.

THE REAL ESTATE business is in a better position now than at any time since 1907, therefore land prices are sure to increase. BUY LAND NOW
